About Me

Dedicated AI and Data Science undergraduate with strong problem-solving skills and a commitment to continuous learning. Proficient in Python, React, SQL, HTML, CSS, and Power BI, with internship experience in machine learning and mobile app development. Delivered projects in Diabetes Prediction using ML, Jaundice Prediction, and patient risk prediction, and a Portal for the Traditional way of Medicine (AYUSH-ONE), showcasing adaptability, technical expertise, and innovation. Eager to apply my skills to deliver impactful solutions and drive organizational success.

Skills

- **Technical Skills :** Python, SQL, HTML, CSS, Java
- **Tools :** TensorFlow, Matplotlib, Keras
- **PowerBI, GIT**
- **Platforms :** Jupyter Notebook, VS Code
- **Soft Skills :** Problem Solving, Adaptability, Communication, Team Work

Subject of Interest

- Artificial Intelligence
- Business Intelligence
- Deep Learning
- Machine Learning
- Full stack development

Certifications

NPTEL : Software Testing (Elite), Human Computer Interaction (Elite+Gold), Design Thinking Primer (Elite).

Infosys Springboard : HTML Web Development AI Foundation Course.

Wipro Corizo: Data Science using Python, Cyber Security, Web Development, Machine Learning

Oracle: Oracle AI Vector Search, Genrative AI Professional.

Education

- **B. Tech in Artificial Intelligence & Data Science** 2023 - 2027
R.M.K College Of Engineering And Technology CGPA : 7.96
- **Higher Secondary Leaving Certificate (State Board)** 2022 - 2023
Adarsh Matriculation Higher Secondary School GRADE : 90.33%
- **Secondary School Leaving Certificate (State Board)** 2020 - 2021
Adarsh Matriculation Higher Secondary School GRADE : 100%

Internship

- **Datascience → Virtual Technology, Ambattur | Offline Internship**
Performed data cleaning, analysis, and visualization using Pandas, NumPy, Matplotlib, and Seaborn.
- **Python with AI & ML → NSIC Technical Services Centre | Offline Internship**
Developed ML models and deployed AI/ML scripts to understand real-world applications

Projects

- **Member Risk Stratification And Care Management-**
Designed an ML model to predict health risk scores and to assign labels to aid in preventive care.
- **AYUSH-ONE: a unified platform for the Traditional way of medicine-**
Aimed to bridge the gap between traditional medicine (AYUSH) and modern medicine through a unified digital portal – making AYUSH doctors more accessible, trusted, and discoverable for citizens
- **Jaundice Prediction using Deep Learning**
Developed a DL model to identify Jaundice through images of Skin and eyes. for the early care.

Co-Curricular Activities

HACKATHON

- **Smart India Hackathon, R.M.K CET**
Participated in team-based solutions prototyping for real-world problems.

- **Inter College Symposium-**

Participated and won 3 of those Technical Competitions at the National level Symposium

Extra Curricular Activities

- Learnt Hindi for both reading and writing, and got Certificates from the Dakshin Bharat Hindi Prachar Sabha
